CUP 2019

NEW MEXICO'S UNIVERSITIES ANNUAL SURVEY of STUDENT SATISFACTION with UNDERGRADUATE EDUCATION

In 2012, Northern began reporting with the Council of University Presidents (CUP). CUP is committed to seeking regular feedback from appropriate constituencies on the quality and effectiveness of our NM universities' academic programs and services. Students currently enrolled in our NM universities are a valuable source of information, which can be used to improve our programs.

Each academic year, New Mexico's seven universities survey graduating seniors in their respective student bodies to elicit students' perceptions regarding their undergraduate educational experiences. The universities developed a common set of questions, so all institutions would have comparable information on their students' satisfaction with their educational experiences.

This report contains summary information on NNMC graduating seniors' satisfaction with a number of factors related to NNMC's undergraduate curriculum/instruction, support services and an overall assessment of students' educational experiences at Northern.

The survey was conducted via surveymonkey over a 3-week period (5/2/2019-5/21/2019). Students received weekly reminders to share input. The response rate was about 32%.

Q9. Please comment on any aspect of your collegiate experience that you felt was a particular strength or a particular weakness in the areas of curriculum, instruction, academic support or your overall college experience.

Respondents

Advisor were always helpful and involved in me finishing.

As a mother, returning to school after 20 years, I was nervous and reluctant however, my professors throughout my educational experience were supportive and encouraging each step of the way.

Awesome experience, staff and students made it great! Thank you

Faculty and staff are really engaged and want to help students succeed

I felt like I was supported at Northern New Mexico College. As an involved Student Leader I had the opportunity to learn a different aspects of people, challenges, and situations. I was also given a lot of support in my choices and ensuring I had the means to complete my college career with proper and diligent academic support.

I've enjoyed every bit of it and I've had a great experience thus far.

Instructors were very caring and helpful in the ADN nursing program. They cared for student success.

More criminal justice and psychology classes (upper division)

Probabilities and stats was difficult

The experience at Northern was very great and successful for me.

The knowledge posses by the instructors was always superb, and most of them really tried to instill understanding, rather than memorization. This paired with their willingness to help, both in & out of class, made NNMC a great place to attend.

Q10. If you were able to make one significant change in the programs,

Responses

1) I would update the writing center and hire staff to stay a little longer in the evening to help

A little more organized and less changing of events and schedule.

Better computers and more quite places would be nice.

Better facilities (specifically lab equipment) and more upper division classes.

Bring back child care for the working parents and make it affordable.

If I was able to make a significant change [will lowerthe tuition to make it more affordable to the It would be beneficial to students for the college to offer classes year round, and make it easier to double-major without having to take so many electives that it takes an additional 1-2 semesters to graduate. Overall, services have been helpful when needed.

More blackboard courses

More student engagement. Possibly dorms, and borrowing computers/laptops.

Native American Group

Offering more classes after 5pm and more weekend options. Most people attending classes have fulltime jobs and families. Cannot always leave work to attend class.

The lunch area having more snack options and not so expensive.

To have more classes on cyber security.
