Table 19

Distribution of total SCHs enrolled by each student

Graph 2: Histogram of the Student Credit Hours per student (the vertical axis is the number of students). Students who take between 12 and 18 credits are only charged tuition for the first 12 credits. Because of this distribution and the attendance of dual credit students, only 88% of the SCHs generated are eligible for tuition. Employee tuition waivers decrease this number even further.
