Policy:

Procedures: Northern New Mexico Community College is committed to prevention of unlawful possession, use or distribution of illicit drugs and alcohol by all students and employees on school premises or as a part of any of its activities.

Substance abuse in the workplace, on the campus or other college locations, or while on college business is prohibited. Substance abuse is defined as the unauthorized possession, distribution, dispensing, manufacture, sale or use or being under the influence of controlled substances that are identified in Schedules I through V of Section 202 of the Controlled Substances Act, 21 USC 812 (United States Code, Title XXI, Chapter 13) or its implementing regulations, 21 CFR Sections 1308.11 to 1308.15 where the use is neither authorized by law nor a valid prescription, or the misuse of a legal substance, including but not limited to alcohol or prescription drugs, that may affect an individual's ability to perform his or her job in a safe, adequate and secure manner. Controlled substances include, but are not limited to marijuana, barbiturates, anabolic steroids, cocaine, (including crack), amphetamines, heroin, PCP, hallucinogens, and certain prescription drugs.

The unauthorized use, manufacture, distribution, dispensation, sale, possession, or transfer of controlled substances (as proscribed by the Controlled Substances Act or identified in Schedules I through V of the Act as described above) on college premises constitutes a violation of this policy; such violation may result in disciplinary action up to and including dismissal, reprimand, suspension with or without pay, termination or discharge from employment and referral for investigation and/or prosecution by law enforcement agencies for violation of the standards of conduct. A disciplinary action may also include the satisfactory completion of a rehabilitation program at the individual's expense.

Substance abuse shall also include the unauthorized use or possession of, or being under the influence of, alcohol or alcoholic beverages on college premises or other college locations.

"On campus, college premises, or other college locations" means in any college building on any college premises; in any college owned vehicle or in any other college approved vehicle used to transport students to and from college activities; off college property at any college-sponsored or approved activity, event or function, such as a field trip or athletic event, where students are under the jurisdiction of the college; or during any period of time college employees are supervising students on behalf of the college or otherwise engaged in college business.

Legal drugs, so long as these drugs do not adversely affect the employee's or student's ability to perform required work in a safe and secure manner, may be used on the work site. When such legal drugs are to be used at the work site and will affect performance, employees should inform their supervisors.

Employees working under any federal grant or engaged directly or indirectly in performance of a federal grant must, as a condition of employment, abide by the terms of the above policy and report any conviction under a criminal drug statute for violations occurring on or off college premises while conducting college business. A report of a conviction must be made within five (5) days after the conviction. (This requirement is mandated by the Drug-Free Workplace Act of 1988.)

Drug testing that in any way involves the examination of body fluids is not permitted unless there is reasonable suspicion that a specific individual is in violation of this policy. In such cases, the individual may be required to undergo testing as a condition of continued employment and/or enrollment as a student. This procedure will require written approval by the Chief Executive Officer or designee.

Random Drug Testing

The obligation of employees in certain positions to perform their duties unimpaired holds direct consequences for the safety of the students of the college and of the general public. Examples would include any positions that involve driving a motor vehicle as a prime and regular duty. As to such employees, in addition to the enforcement procedures set forth above, the College reserves the right at any time to require the submission of blood, breath or urine samples by any such employees for testing by an authorized testing laboratory. A refusal by such an employee to provide such a sample upon request shall be considered insubordination and may lead to disciplinary action, including discharge.

The College shall also possess the discretion to conduct nondiscriminatory random drug testing programs for students participating in athletic activities conducted or sponsored by the College.

Health Risks

Alcohol and controlled substance abuse can lead to early behavioral and psycho social problems. Substance abuse is a nondiscriminative, progressive illness, which typically begins by experimentation, continues due to misinterpreted behavioral standards, and may result in addiction.

Addiction to alcohol and/or illicit drugs will debilitate the total wellness of the individual and interfere with his or her ability to carry out even simple tasks.

Descendants of a blood relative with a history of alcohol or substance abuse are at greater risk of becoming addicted. There is no safe level of chemical use during pregnancy and research indicates that use prior to conception by either partner can affect the infant.

For complete information concerning the health risks resulting from use and/or abuse of alcohol and illicit drugs, contact the College counseling center.

Employee/Student Assistance

Northern is committed to a safe working and learning environment for its employees, students, and the public. Substance abuse affects employee performance, conduct,

and/or reliability, and students' ability to learn and complete assigned tasks.

Northern strongly encourages employees who engage in any form of substance abuse, including alcohol or other drug-related problems, to voluntarily refer themselves for assistance. The College will provide support or referral for employee assistance, rehabilitation, and/or counseling.

The Chief Executive Officer will appoint an Employee/Student Assistance Team. In dealing with students, the team will report to the Dean of Students; in dealing with employees, to the Director of Human Resources. The function of this team is to intervene and guide (within the limits of its members' professional competence as substance abuse counselors), make referrals to other resources (internal and external) and monitor the progress of the subject towards a return to a healthful lifestyle. The team shall, as much as possible, consist of employees who possess a degree of expertise in substance abuse counseling and treatment. The immediate supervisor and/or others in the line of supervision may be added to the team. In dealing with students, the counseling staff may be included as available and/or as needed. Individual team members may exclude themselves as necessary because of personal considerations relative to specific clients and/or situations. The Chief Executive Officer may assign other duties in other assistance areas besides substance abuse. Professional consultants may also be included.

Referrals may be provided for employees who request medical help or rehabilitation. The Director of Human Resources will provide assistance, guidance, and training for supervisors and employees regarding implementation of this policy.

Employees are encouraged to participate in employee assistance. Therefore, employees who voluntarily seek such assistance, termed self-referrals, will be accorded different treatment than supervisor referrals described below. Information regarding the employee who is participating in the program will be treated as confidential and will be accorded the protection required by applicable state and federal law.

Employees who have entered into rehabilitation must comply with the terms of the program. Employees entered into inpatient rehabilitation as a part of a prescribed program will be placed on appropriate leave status for that period. Fees and expenses incurred are the responsibility of the employee.

Employee Performance

Supervisors will observe employee performance and on-the-job conduct to detect behavior that could compromise the health or safety of the employee or others. When that observation indicates cause to believe that substance abuse is a factor, supervisors are to take appropriate action as directed in this policy when:

- (1) behavior is observed that may pose an immediate threat to the health and safety of the employee or of others and the supervisor reasonably suspects that substance abuse may be a contributing factor;
- (2) the use of controlled substances, the misuse of legal substances, or unauthorized use of alcohol has been observed in the workplace; or,
- (3) a work-related accident or incident occurs where the supervisor reasonably suspects that substance abuse may be a contributing factor.

In substance abuse cases, the employee's supervisor will report the matter to the

Director of Human Resources who will outline the course of action with the respective Dean and take the necessary steps in compliance with this policy. The employee's supervisor may refer the employee for professional evaluation for substance abuse, and report the referral to the Director of Human Resources. Where there is misconduct and/or substandard performance and there is uncertainty as to whether substance abuse is a factor, the supervisor will refer the employee for substance abuse assessment through the Director of Human Resources.

Standards of Conduct

All employees are expected to cooperate fully with Northern's objective of maintaining a Drug-Free Workplace. Failure to do so is deemed to be a violation of college policy and the standards of conduct prescribed therein. Accordingly, in the event that an employee violates this policy, refuses to submit to a required evaluation for substance abuse, refuses rehabilitation, fails to complete a prescribed rehabilitation program, fails to submit required documentation relative to evaluation, or falsifies any record relative to substance abuse, such employee will be subject to disciplinary action up to and including discharge.

Policy Review

A biannual review of this Substance Abuse Policy will be conducted to determine its effectiveness, to implement changes as needed, and to ensure that disciplinary sanctions are consistently enforced.

This policy is adopted in accordance with Public Law 101-226, Drug Free Schools and Communities Act Amendments of 1989, for receipt of federal program funds.
