

## NNMC Leverages Taxpayer Dollars

- An estimated **98%** of NNMC students remain in New Mexico and contribute to economic growth. Students who enter the workforce expand the tax base by generating higher earnings and reducing social costs.
- Higher student earnings and associated increases in property income generate about **\$2 million** in added tax revenue each year.
- State and local governments will save approximately **\$149,200** in avoided social costs each year, including savings associated with improved health, lower costs of law enforcement, and fewer welfare claimants.

Long-term Return to Taxpayers on Their NNMC Investment

## NNMC Generates a Return on Public Investment

- State and local government allocated about **\$10.2 million** in support of NNMC in FY 2010–11.
- For every dollar appropriated by state government to NNMC, taxpayers will see a return with a cumulative added value of **\$3.80** in the form of higher tax revenues and avoided social costs.
- State and local governments will receive a rate of return of **13.2%** on their investments in NNMC.

EMSI is a leading provider of socioeconomic impact and strategic planning tools to colleges and universities in the US and Canada. Visit us at [www.economic-modeling.com](http://www.economic-modeling.com) for more information. To see the full documentation of the study, please contact NNMC.
