

## **Technical Certificate**

### **RADIATION CONTROL TECHNICIAN**

This certificate is designed to prepare you for entry-level skills required for employment in the nuclear industry. This program prepares you to conduct radiation surveys, interpret survey data, assess personnel protection requirements, and recommend personnel in appropriate personnel protective procedures for the protection of human health.

Qualified radiation protection technicians work at Department of Energy (DOE) National Laboratories, medical facilities, research laboratories, nuclear power plants under the direction of the Nuclear Regulatory Commission (NRC) medical facilities, and industries that work with radioactive material. In addition to specialized classroom and laboratory instruction, students are required to complete supervised field experience.
