II. Erika Montoya Appeal

Committee members were made aware of the request by Erika to remain an IA with PVIS for Kindergarten while student teaching Spring 2016. Kristy gave everyone copies of the revised handbook as a resource for better informed decisions which included the following excerpt from the NNMC COE Handbook:

20.5. Student teacher candidates who are employed in a school district or have any other type of employment will be allowed to complete their practice teaching concurrently as long as their work responsibilities do not interfere with any of their student teaching activities and responsibilities. The COE requires that student teachers are completely involved in the classroom in a teaching role and that they put forth their best effort in their school work during this period. . Students may appeal this policy following the guidelines associated with the NNMC COE Field Placement Appeals Committee. *refer to the Appeals Committee Policy see for further details

- Further information regarding Erika's situation was provided; Kristy reported that she had called the principal and confirmed that Erika would be with a Tier II or Tier III (preferable) mentor and that she would need to take over full responsibilities of the classroom as per the gradual design model of the placement.
- The committee determined that Erika would comply with handbook guidelines if she maintained employment with PVIS while student teaching.
- A majority vote of "yes" approved Erika's request (appeal) to student teaching while maintaining employment with PVIS.
