ASSOCIATE OF ARTS EARLY CHILDHOOD EDUCATION

The Early Childhood Education Program at Northern New College is part of the articulated Universal Catalogue of Courses for Early Childhood Education in the State of New Mexico. The program offers instruction and practical experience in working with young children and their families.

The course objectives are taken from the New Mexico State Department of Education's Common Core Competencies for early childhood professionals. The core competencies are designed to describe what early childhood professionals should know and be able to do at the conclusion of this program.

Upon completion of this program students will be able to demonstrate the entry level Common Core Competencies for early childhood professionals and be prepared to teach students birth-grade three. This program also provides a seamless transition to Northern New Mexico College's Bachelor Degree in Early Childhood Education.

Note: Advising faculty should initial and date. Place copy in student file and a copy to student.
