

## NNMC Student Life Survey 2018

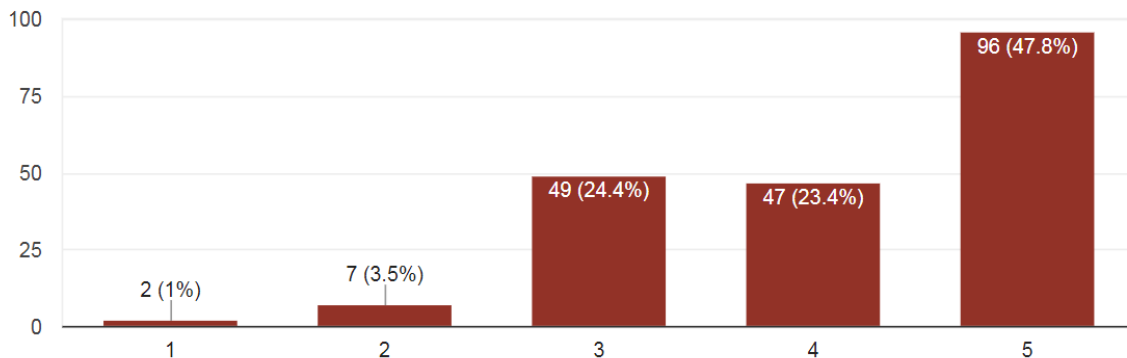

Student Life and Co-curricular Assessment (CoCu) are coterminous committees that share many of the same members. CoCu coordinates assessment of co-curricular activities/experiences outside of the classroom on campus. Student Life organizes, hosts, and/or funds many CoCu events. To be efficient, meetings are combined to create support in areas of overlap in missions, but also to embed a feedback loop where missions differentiate. Student Life works closely with Student Senate and student clubs to ensure that student activity fees are spent effectively and enhance the whole student experience at Northern New Mexico College.

Students (201) completed a survey to provide feedback that will inform Student Life, Student Senate, and the college community to maintain successful co-curricular activities or identify new activities based on the students' needs and interests. In 2018, more students (38) participated in the student survey than in 2017. Most students state that email broadcast and text are best for communication with them.
