Benchmark is 75% of student body, based on US Census of Hispanic and Native American population in the Colleges three-county service area.

NNMC was the first Hispanic Serving Institution (HSI) in the US. We are also a Tribal Serving Institution.

NNMC has steadily increased recruiting and retention of Hispanic and Native American students through a series of outreach programs, orientations and improved student services. We have persistent recruitment in our region of primarily Hispanic and Native American communities and high schools.
