Q13	What were the strengths of the program?	<ol style="list-style-type: none"> 1. The strengths of the program are the supports provided for aspiring teachers. The culture of the classes are so encouraging and supportive. Sandra and Cathy both want to see all of their students succeed and provided them with support and inspiration. 2. It gave the students good insight in the classroom. 3. Sandra is a huge asset to the program – she is a definite strength. Without her, I wouldn't have found my way through the program. All of the Education Department staff are very helpful, and definitely are an asset to the program! 4. The program is designed to prepare the student for the Licensure exam. 5. The good communication and support from the instructors. 6. Convenient time, many tools to help pass classes and Praxis exams, knowledgeable teachers.\ 7. Dr. Rodriguez has been an advocate for all of us students/future teachers. The program at NNMC has been very well organized. All the teachers that I have had have been very supportive and understanding. They truly care about their students. Dr. Berryhill has been a huge part of my journey and I cannot thank her and Dr. Rodriguez enough for all of their hard work. 8. Very knowledgeable teachers that always go above and beyond to help their students succeed. 				

Q14	What would you suggest to improve the program?	<p>9. The professors make the program as great as it is.</p> <ol style="list-style-type: none"> 1. I was surprised when I took my exit exams about some of the specificity on the praxis tests. The only improvement I would recommend for the program would be perhaps being explicit about some of the smaller details that are included on the Praxis exam. 2. N/A 3. Some of the instructors overload the weekly workload. I understand that courses require work, but sometimes the weekly work load is too much for people who are taking more than that class, and also work. Suggesting more manageable workloads would be helpful. 4. More practiced tests that are related to the licensure exam. 5. They are great!! 6. I feel like meeting as a class once a week would be beneficial for the online course. 7. N/A 8. Continue to offer online classes. 9. Not sure.
Q15	What advice would you give to future students?	<ol style="list-style-type: none"> 1. Do your best and keep going, it will get better! 2. Pay attention there is very valuable information to use in the classroom and throughout your career. 3. Don't give up! Sometimes the road gets hard, and it's easy to give up – don't! It will all be worth it in the end! 4. Ask plenty of questions. Take practice exams throughout the course. 5. Instructors are great!! 6. Make sure you complete the reading. 7. Do not get discouraged and do not give up! The course loads may seem like a lot, but it goes by so quick. The team at NM College works with you and truly believes in you. You are provided with such immense support and resources. Believe in yourself and you can get it done. 8. Don't give up and always ask for help. You are in a great school that has great teachers. 9. Enjoy every minute of the program.
